

Wireless Camera Connectivity for Trimble Handhelds

Announcing TrimPix technology—the great new way to quickly and easily add high quality digital photographs to your GIS data collection workflow.

TrimPix™ technology works on your GeoExplorer® 2005 series, Trimble® Recon® or Trimble Ranger™ handheld, and supports the WiFi-capable Nikon COOLPIX P1, P2, P3, S6, or S7c digital cameras.

Best of all, the TrimPix software is free of charge. Click [download](#) to enable wireless camera connectivity on your Trimble handheld today!.

Introductory Promotion—Buy a GeoExplorer series handheld in 2006 and get a rebate on a WiFi-capable Nikon digital camera.

To mark the launch of TrimPix technology, buy a GeoExplorer 2005 series handheld before December 15, 2006 and receive a US\$200/€160 rebate on the purchase of a WiFi-capable Nikon digital camera.
